DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1, 6-13, drawn to methods of determining the effectiveness of a composition to inhibit HSV infection reactivation.

Group II, claim(s) 2, 3, 6, 8-10, and 14, drawn to methods to determine the effectiveness of a composition to inhibit HSV infection.

Group III, claims 4, 6-13, drawn to methods of determining the effective dose of a composition to inhibit HSV reactivation.

Group IV, claim(s) 5, 6, 8, 10, 11, and 15, drawn to methods to determine the effectiveness of a composition as a UV protectant.

2. The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the inventions are linked by the common technical feature of using an animal model of HSV infection to test the effects of compositions on reactivation of the viral infection. These inventions lack a common special technical feature because the common method, the making of a HSV reactivation model, is known in the art. See, Norval et al., J Gen Virol, 68(10): 2693-98. As the methods of the different Groups otherwise either perform different functions, and/or have different modes of operation, the inventions of these Groups lack a common special technical feature.

Conclusion

Art Unit: 1648

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Zachariah Lucas whose telephone number is 703-308-4240. The examiner can normally be reached on Monday-Friday, 8 am to 4:30 pm.
